

UNITE CONSULTATION UPDATE 2

10th October 2012

Dear Colleague,

Today, a team of your reps met with the Company to learn the full impact of yesterday's fleet review announcement on the cabin crew community. The figures can now be viewed on Xplorer and you can see how the potential redundancies would impact on your role and base.

NEXT STEPS:

Unite will now begin the process of collective consultation. We will ensure your views and suggestions are taken to the Company in our regular collective consultation meetings which are scheduled in the coming days and weeks.

Some of the representative committee will cease flying in order to ensure we are available to communicate with you, and meetings will be arranged at your bases as appropriate. The next collective consultation meeting will take place next week and an update will follow this. In the meantime, having read the Company information, please contact your base rep or email consultation@tcxunite.com if you have any queries on the process ahead of us.

In Solidarity,

Your Reps
